Walpole High School

275 Common St.
Walpole, Ma, 02081

Our Mission is to foster learning through a collaborative process that engages students, educators, and the community. This endeavor provides opportunities for students to acquire knowledge and to develop skills in order to achieve academic and personal goals. We will make every effort to graduate all students as successful and literate members of society - and be able to succeed in the increasingly complex world in which they will live and work.

We Are . . .

"Stop trying to name the robot and build it first" -- Mrs. D'Agostino

I would like to be adopted by "Mr. Salmans so we can eat almonds together while listening to Taylor Swift" -- Erin McAdams

February 2, 2000 - January 29, 2017

Anthony had more wisdom, laughter, and inspiration than any student I have ever taught. He had a down to earth personality and an utterly unique sense of humor that made him a hit with classmates and friends, family, Walpole Staff, and a seemingly ever-growing number of Hollywood stars and industry professionals. To put it simply, I have never met anyone like him.

Speech & Debate

The Speech and Debate Team had another successful year as WHS hosted the Novice Tournament again and raised close to $3000 to help pay for tournament fees. Some impressive team results include placing 5th at Dighton-Rehoboth, placing 7th at the Holly Festival at Natick High, and placing 10th at Newton-South. Congrats to senior, Ava Straccia, who placed 8th out of 55 students at the Sunvitational Tournament in Fort Lauderdale and senior, Reshma Abraham, who qualified and competed at the NCFL Nationals in Milwaukee, WI this past Memorial Day weekend. Lastly, the team earned charter status in the National Speech & Debate Association, which is the highest school membership honor the NSDA offers. Bravo to all members!

Robotics

The 2019 FIRST Robotics challenge was Destination: Deep Space Presented By The Boeing Company.

The challenge was revealed in early January. The team quickly discussed game strategy, brainstormed how to score points effectively and then set to work on prototyping the various subsystems. They worked on the drivetrain, collecting/scoring systems for both hatch and cargo game pieces as well as a method to complete a HAB climb.

Each two and a half minute match included 15 seconds of SANDSTORM which required the robot to drive autonomously or remotely with only camera vision.

The game included driving off HAB level 1 or 2, crossing the HAB line, placing hatches and cargo on rockets or a cargo ship and then attempting to get back onto HAB level 1, 2 or 3 with the hopes of getting 15 alliance HAB climb points to earn a rank point.

Team 1153 participate at district events at Bridgewater/Raynham High School and Bryant University in March. The New England District Championship was held at WPI in April.

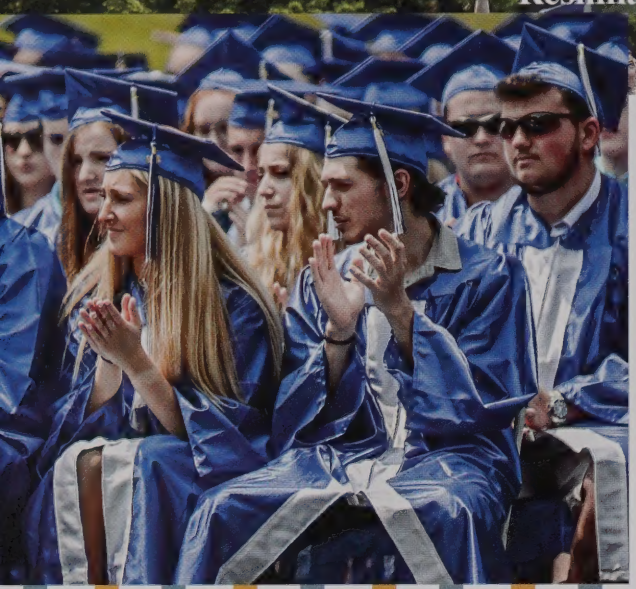
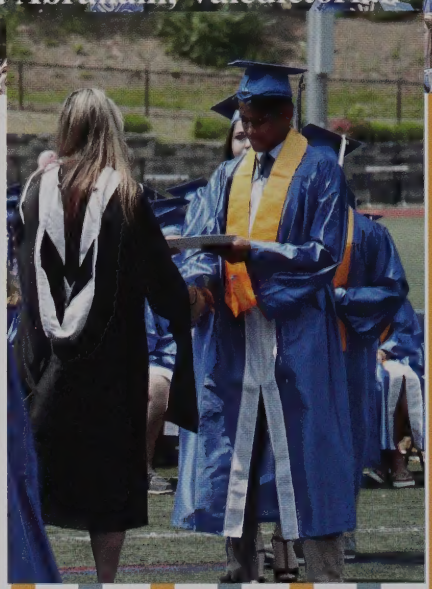
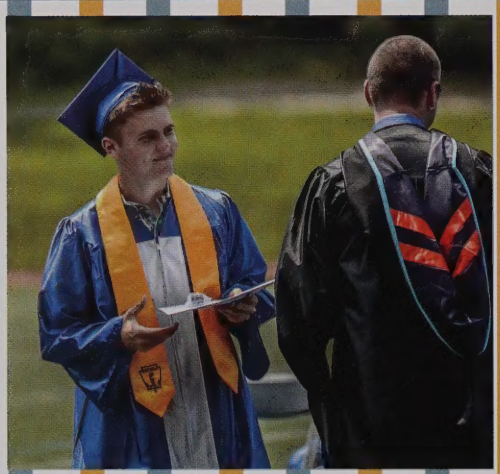
Class of 2019

The amount of knowledge we as humans collectively possess doubles every day, meaning there is so much to learn from each other and the world around us. No matter the direction our story takes from this point forward, whether it's the first day of college, a job interview, or military school, let us remain as inquisitive as our freshman selves and never stop asking questions.
Reshma Abraham, Valedictorian







Graduation

"So for the future, my friends, let us continue to break records and push the limits. We all may be very different people, but that is what makes us stronger in the end."
Sanjana Bhagavatula, Salutatorian
